

What is a solar awning?

The Solar Awning is a proprietary design by Living Vehicle that doubles the amount of solar. The top layer of panels exposed to the environment will always be charging, even when towing the vehicle. The solar awning is deployed in seconds with the flip of a switch providing shade for the patio side of the LV.

How to use the power awning and LED lit awning? 2015 Voltage 3605 [youtube.com](https://www.youtube.com/watch?v=3605) How are solar awnings different from solar panel patio covers?

Solar awnings are different from solar panel patio covers in that they are awnings meant to roll up and out to provide shade. There are two different definitions of solar awnings. One is an awning that runs with its solar panel. The awnings extend and retract automatically using solar power.

What is a solar panel patio cover by extension?

A solar panel patio cover by extension is a patio cover with solar panels incorporated into its design, either sitting on top of the patio or the roofing material itself. You can use the power from the panels in plugs, batteries, and lights for whatever capacity your patio needs.
