

What is a solar power bank?

A solar power bank is a portable device that can charge small appliances using solar energy. Jackery portable power banks are a popular choice when you're away from electricity, whether for an office trip or a family camping adventure.

How much does a power bank cost in China?

Chinese media estimate that the sourcing price for each power bank is between US\$7 to US\$10, and up to US\$1,000 for each charging station. The cost is far lower than setting up a dockless bike sharing business, where a bike alone could cost several hundred dollars. That's not counting the money spent on maintenance and recovery.
