

What are Casio solar watches?

CASIO's solar watches offer numerous advantages. Firstly, they eliminate the need for battery replacements, reducing maintenance costs. Additionally, solar watches can be recharged repeatedly, allowing for extended periods of use. Furthermore, the solar charging capability ensures accurate timekeeping even in indoor or dimly lit environments.

How does a Casio solar watch work?

Technological Advancements CASIO's solar watches incorporate groundbreaking technology that harnesses solar energy to charge the watch's battery. The solar panel is integrated into the watch's dial, converting light energy into electrical power. This system extends the battery lifespan and enables the use of environmentally friendly energy sources.

How much sunlight does a Casio / G-Shock watch use?

With CASIO /G-SHOCK watches, just 8 minutes of direct sunlight gives you 1 day worth of power - any light source - artificial light such as lightbulbs or natural sunlight. Solar powered watches have a power reserve of up to TWO YEARS\*(\*times may vary, please refer to your watches manual).

Why should you buy a Casio solar watch?

The CASIO Tough Solar System used is so advanced that the weakest light sources are sufficient to supply your watch with energy. In addition, every CASIO solar watch is equipped with a rechargeable battery that is charged by the solar cells. For uninterrupted reliability- even in the dark and at night.

How long does a Casio solar watch last?

The power reserve of Casio solar watches depends on the use of various functions, but it stays mostly around six months. Several timepieces also feature a power save mode, which enables the watch to be "put to sleep" for up to two years. However, it also means you can't use the watch during that time.

Are Casio solar watches waterproof?

As a rule, CASIO solar watches are waterproof. However, it is important to pay attention to the model-specific properties. Water resistance can vary considerably. Most CASIO solar watches can withstand a water pressure of 5 to 20 bar.

For uninterrupted reliability - even in the dark and at night. The permanent power supply from solar energy means less maintenance and less battery waste for you. A solar watch is ...
