How many solar companies are in Pennsylvania? There are 27 solar companies in Pennsylvania on the EnergySage Marketplace.

How many solar companies are there in Pennsylvania?

Pennsylvania has 491 solar companies operating in the state, according to the Solar Energy Industries Association (SEIA). While more choice is typically better, homeowners may find it difficult to select a provider that suits them best. Below are three key factors that can help you choose a solar installer for your home.

Is Palmetto a good solar company in Pennsylvania?

Palmetto tops our list of solar companies in Pennsylvania due to its excellent efficiency. See how it compares to other providers in the Keystone State. According to the Solar Energy Industries Association (SEIA), Pennsylvania has roughly \$3.9 million invested in solar energy and more than 200 solar installers to choose from.

Is Pennsylvania a solar-friendly state?

**Beneficial solar incentives:** Despite being known as the Coal State in the past, Pennsylvania is now a solar-friendly state with several pro-solar policies and incentives. Solar panel owners in the state can benefit from its Solar Renewable Energy Certificates (SREC) market and a lucrative solar rebate program.

How do I choose a solar company in Pennsylvania?

Solar companies that are licensed, insured and hold certifications take their business seriously. Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. Pennsylvania requires solar installers to become EAA-Certified in photovoltaics.

Is solar energy storage worth it in Pennsylvania?

In Pennsylvania, the law states that all utility companies must offer full-retail net metering to customers, meaning a solar battery won't save you additional money on your electric bills. However, solar energy storage can still be worth it for customers who want backup power during an outage.
