How many solar installers are there in Rhode Island?

There are only 11 local solar installers in Rhode Island, according to the Solar Energy Industries Association (SEIA), plus national companies that operate within the state as well.

How do I choose a solar provider in Rhode Island?

When choosing a solar provider, you should find a company that meets what you want and need for your Rhode Island home. You may not know exactly what solar products you want before you get started, but you should always consider your home's energy needs.

Is Sunrun a good solar company in Rhode Island?

Sunrun is another big name you'll likely come across when researching solar leases in Rhode Island. Sunrun doesn't have a great reputation among customers or solar industry pros, so we don't recommend doing business with this company. What are the best solar companies for zero-down solar loans in Rhode Island?

How do I install solar panels in Rhode Island?

If you want to install a solar panel system in Rhode Island, you will need to apply for a solar permit through the Office of Energy Resources (EOR). This applies to all municipalities in Rhode Island.<sup>4</sup> If you choose to install your panels yourself, you will have to apply for this permit independently.

Why are Rhode Island homeowners turning to solar energy?

More and more Rhode Island homeowners are turning to solar energy due to the state's higher-than-average electricity rates. The state government plans to achieve 100% renewable energy use by 2033--one of the country's most aggressive renewable energy goals. Rhode Island supports this through generous solar incentives and credits.
