How many solar panels are installed in the Sunshine Coast?

A combination of soaring electricity prices and a desire to be part of the solar power revolution was all the inspiration needed. To date, more than 40,000 solar power systems have been installed in the Sunshine Coast area - more than 40% of all Sunshine Coast homes have solar panels installed.

Should you invest in solar energy on the Sunshine Coast?

You may want to go green or cut your energy costs. The climate here on the Sunshine Coast is perfect for solar energy. However, investing in solar power requires various considerations: How many panels are necessary? What power level is optimal? What about cloudy days? Is a battery storage system crucial? And what's the expected payback period?
