Rely on end-to-end service and support for your solar panel installation in Pittsburgh, PA with Palmetto - the easiest way to go solar! Residential solar installations are on the rise in Pittsburgh and Western PA. Across the state, more than 115,000 homes are now powered by solar.

Are solar panels on the rise in Pittsburgh & Western PA?

Residential solar installations are on the rise in Pittsburgh and Western PA. Across the state, more than 115,000 homes are now powered by solar. Despite the cloudy weather, solar panels installed in Pittsburgh can benefit from cooler temperatures and capture indirect light to generate electricity for your home.

How much does solar cost in Pittsburgh PA?

The average price per watt of solar power in Pittsburgh, PA is \$2.73/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$19,895 for a 10.42 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Is solar a good investment in Pittsburgh?

In Pittsburgh, the average resident can save about \$1,600 a year on their electricity bills. Solar is a worthwhile investment for most homeowners. You can produce your own energy instead of paying for it from a utility company and benefit from solar tax credits and rebates, all while helping the environment.

Do I need a solar battery in Pittsburgh?

No, you don't need to install a solar battery in Pittsburgh. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.
