What are the best Solar Lease companies in Richmond?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Richmond.

How much does solar cost in Richmond VA?

The average price per watt of solar power in Richmond, VA is \$2.87/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$26,692 for a 13.27 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Do solar panels save money in Richmond?

But your savings will depend on how your utility bills solar customers, how many panels you can fit on your roof and how much energy you use. The easiest way to find out how much your specific home can save with solar is by using our solar savings calculator. Do I need a solar battery in Richmond?

Should you get a solar loan in Richmond?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Richmond, rather than a leasing company retaining them.
