

What is the global market outlook for solar power?

SolarPower Europe's annual award-winning Global Market Outlook for Solar Power is the most authoritative market analysis report for the global solar power sector. The EU Market Outlook for Solar Power 2022-2026 contains an updated forecast for the EU solar market in 2022 and projections of the evolution of the market through 2026.

What is Europe's solar power market outlook for 2023-2027?

SolarPower Europe's new EU Market Outlook for Solar Power 2023-2027 reveals a record 56 GW of solar installations in Europe in 2023. However, the forecast for next year is lower. Almost 17 million more European homes were powered by solar in 2023, due to a 40% growth in solar installations from 2022.

What is the growth rate of Europe solar PV market?

The Europe solar PV market was valued at USD 63.1 billion in 2024 and is expected to reach around 127.3 billion by 2034, growing at 7.1% CAGR through 2034. What will be the growth of off grid segment in the Europe solar PV industry? The off grid segment is anticipated to register more than 9.5% CAGR through 2034.

Is solar growth slowing down in Europe?

This represents a 92% slowdown of solar growth. SolarPower Europe's annual EU Market Outlook for Solar Power reveals that 65.5 GW of solar has been installed in 2024, just beating the 2023 record of 62.8 GW of new solar. The total EU solar fleet now stands at 338 GW, quadrupling from 82 GW a decade ago.

Will solar technology grow in the EU in 2025?

Solar technology will keep growing in different parts of the EU in the coming years. Countries see solar power as the safest, most flexible, and cost-effective way to meet their climate and energy needs. By 2025, the list of GW markets is expected to expand to 18 markets, a level it will keep until 2027 (Figure 32).

What is the EU solar jobs report 2023?

The EU Solar Jobs Report 2023 contains an updated forecast for the EU solar job market in 2023, and projections of the evolution of the EU solar workforce until 2027. The EU Market Outlook for Solar Power 2023-2027 contains an updated forecast for the EU solar market in 2023 and projections of the evolution of the market through 2027.
