

Can you save money installing solar panels in Oklahoma?

Oklahoma residents can save money when installing a solar system on their home thanks to the 26% federal tax credit. Enter your details to calculate the cost and savings you are likely to get from installing solar panels.

How much does a 6 kW solar system cost in Oklahoma?

In Oklahoma, a 6 kW solar system costs approximately \$15,720 before incentives. After the 30% federal solar tax credit, the cost drops to \$11,004, or about \$1.83 per watt. Keep in mind that the total cost of a solar system can vary depending on the company you choose, the size of the system, the equipment installed, and how you finance it.

Who is the best solar installer in Oklahoma?

Compare each completed quote before committing to an installer. SunPower is our top recommendation for Oklahoma solar installers. Its high-efficiency panels and streamlined solar energy systems provide peak power production and increased energy savings.

Are solar panels tax deductible in Oklahoma?

Oklahoma offers limited state-level solar incentives. However, homeowners can still benefit from the federal tax credit for up to 30% savings on solar panel installation costs. This credit applies to the purchase of photovoltaic (PV) panels, solar roofing, and stand-alone battery storage options. You must legally own your solar panels to qualify.

What is the average size of solar energy systems in Oklahoma?

The average size of solar energy systems in Oklahoma is 11 kW (kilowatts). You can easily determine what size system you need. First, find out the amount of electricity you used in the last year in kilowatt-hours (kWh). You'll find this information through your electric bill's online account dashboard.

How much power does a solar system produce in Oklahoma?

Under ideal conditions, a solar system installed on a south-facing 27-degree pitch roof in Oklahoma generates 1,550 kWh of peak DC (direct current) capacity per year per 1 kW. Enter your location, roof tilt, and roof direction into the solar panel calculator to see the impact on solar panel production.
