

Does Google's Nest Cam have a solar panel?

Google released its first battery-powered Nest Cam in 2021, but using the camera solely on battery power tends to take away from the experience. With the addition of a solar panel, however, the Nest Cam gets not only a steady source of power, but also better overall functionality. Wasserstein's Nest Cam Solar Panel is easy to set up.

How powerful is a Wasserstein solar panel for a Nest Cam?

NON-STOP SOLAR POWER - Made of premium US-engineered solar cells, the Wasserstein Premium Solar Panel quickly charges your Nest Cam with just a few hours of sunlight **HIGH POWER SOLAR CELLS** - The premium solar panel for camera delivers up to 3.5W of solar power, making it 30% more powerful than the standard Wasserstein solar panel for Nest Cam

What is a Nest Cam (battery)?

The Nest Cam (battery) is a smart, functional, and reliable outdoor security camera that's perfect for any home. The indoor/outdoor wireless Nest Cam (battery) is Google's first battery-operated wireless home security camera. If you prefer continuous power, this camera can do that, too, with a separately sold weatherproof power cable.

Which solar panels are compatible with Google Nest devices?

MADE FOR GOOGLE - Designed and manufactured by Google's leading accessory partner, the Wasserstein Premium Solar Panel has passed the Made for Google certification to ensure 100% compatibility with Google Nest Devices **PRODUCT DIMENSION** - 11.28 x 4.96 x 0.80 inch; 0.99 lb

How does the Nest Cam work?

The Nest Cam is mounted to a wooden post which left the perfect space open for mounting the solar panel - it takes just two included screws to lock the panel in place, a process that took all of a couple of minutes. The packaging also includes wall anchors and adhesive clips to route the cable.

What is a premium solar panel for camera?

HIGH POWER SOLAR CELLS - The premium solar panel for camera delivers up to 3.5W of solar power, making it 30% more powerful than the standard Wasserstein solar panel for Nest Cam **ZERO DOWNTIME** - No need to take down the camera to charge the batteries as the solar panel keeps your camera powered on around the clock
