

Can disabled veterans get solar panels?

Yes, disabled veterans can get solar panels for their homes through the federal government's High Energy Cost Grant Program. Managed by the U.S. Department of Agriculture, this program offers grants in areas with high energy costs.

Can veterans get a loan for solar panels?

The Department of Veterans Affairs (VA) offers the Energy Efficient Mortgages program for loans to veterans of up to \$6,000 for solar panels. Solar panels convert the energy of sunlight into electricity, a process known as photovoltaics.

How can veterans get involved in the solar industry?

The Solar Foundation took over in 2019 and announced two initiatives to get more veterans involved in the solar industry. The first is the Solar Ready Vets fellowship program, which offers a series of 12 week-long, work-based learning programs that place veterans and active duty personnel with solar employers for hands-on learning.

Are disabled veterans eligible for solar grants?

Disabled veterans are eligible to apply for solar grants. The ClimateSmart Solar Grant Program in Boulder, Colorado, offers energy grants for low-income housing that provide up to 50 percent of the funding for solar panels.

What is the maximum loan amount for solar panels through the VA?

The Department of Veterans Affairs (VA) offers the Energy Efficient Mortgages program for loans to veterans of up to \$6,000 for solar panels. Disabled veterans and other veterans may also be eligible for other types of energy incentive programs.
