

What is a solar geyser?

The offered solar geyser is a non electric appliance meant for heating water in homes and industries. Our offered solar geyser works on the thermodynamic principle of heat, to keep the water warm. The offered solar geyser is efficient enough to heat the water even in cold weather ad winter season.

Does a solar geyser lower the price of electricity?

With the expensive price of electricity,not having to rely on electricity means you can cut back on your monthly expenses. The quality of the water that enters the system will not affect the solar geyser. Save up to 90% of your water heating costs. "Solar geysers will lower the price of your electricity.

Should you buy a solar geyser?

The benefits of having a solar geyser will outweigh the costs that you have to paywhen you have found a solar geyser for sale. Solar water heating systems can be installed on every roof type which makes it perfect for every home and an addition that every home should consider having.

Does water quality affect a solar geyser?

The quality of the water that enters the system will notaffect the solar geyser. Save up to 90% of your water heating costs. "Solar geysers will lower the price of your electricity. The solar geyser price will not be a huge expense because it will start showing you financial returns in around 2-3 years."

Why should you invest in a solar geyser?

The energy of the sun is available to everyone,for free,each and every day. Investing a solar geyser will mean that you will never have to worry about the energy resource running out. The energy generated is free and it is renewable. This means that you are saving money each month that you have and use a solar water heating system.

How much does it cost to install a geyser?

The average cost for the labour for installing a geyser will be between R2500 and R3500+depending on the difficulty of the job and what additional work that needs to be done. For instance,if you're putting a geyser in a recently built home,the project can be more expensive because there might be necessary plumbing work.
