"Solar Power" makes a lot more sense now that it's grounded by the added dimensions of all the other songs on the album. What is Lorde's solar power?

Is 'solar power' full pop-star mode activated?

Full pop-star mode has been activated. "Solar Power" marks Lorde's third album and her first since 2017's "Melodrama," a Grammy nominee for album of the year. What's the difference between 'Pure Heroine' and 'solar power'?

Much of Lorde's 2013 debut "Pure Heroine" wrestled with the then-16-year-old's impending fame and growing up, offering wistful wisdom on standouts "Tennis Court" and "Ribcage." "Solar Power" explores similar themes, but from the perspective of a slightly older, more battle-tested songwriter.
