

Who is Hawaii residential solar?

Hawaii Residential Solar is Hawaii's all-in-one residential solar solution. With over 25 years of combined experience in solar system installation, photovoltaic solar system maintenance, and home solar system repair, our experts are proud to help Hawaii's local communities gain energy independence!

How do you use solar energy in Hawaii?

Simply finance or purchase a PV Solar system from Hawaii Residential Solar. Use the power you need during the day. Any unused solar energy gets efficiently transferred to your Battery Energy Storage System. At dawn, draw from the supply that was accumulated earlier in the day. Service disruptions will be an inconvenience of the past.

How much do solar panels cost in Hawaii?

Currently in Hawaii, participating utility companies (HECO, MECO and HELCO) are paying \$0.218/kWh for solar panel systems that are less than or equal to 20 kW; and \$0.189/kWh for solar panel systems that are greater than 20 kW and less than or equal to 500 kW. Hawaii has not set rates for systems that are greater than 500 kW just yet.

What are the best Solar Lease companies in Hawaii?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Hawaii.

Does Hawaii offer a solar energy rebate?

Through the Kauai Island Utility Cooperative's Energy Wise Program, Kauai residents may be eligible to receive an \$800 rebate when they install a qualifying solar water heating system. Furthermore, Hawaii has adopted a strong tax credit incentive to help people afford the cost of different types of solar products for their home or business:

Does Hawaii have a feed-in-tariff system for solar energy?

Hawaii is also one of the few states in the U.S. that has adopted a feed-in-tariff system for solar energy. A feed-in-tariff is essentially where your utility company has to pay you cash for the amount of energy your system produces above the amount you consume.
