

Does Delhi have solar power?

Delhi has immense solar potential, as the region experiences over 300 sunny days. Why not use this sunlight raining down on us, and turn it into usable electricity that can power our building? However, navigating through policies and subsidies can be daunting, especially if you're new to the world of solar energy.

What is the capital subsidy for solar projects in Delhi?

State Capital Subsidy: Under the new Delhi Solar Policy, the Capital subsidy for all Solar projects for residential customers shall be given at the rate of Rs. 2,000/- per KW upto a maximum of Rs. 10,000/- per consumer. The subsidy will be passed through their first electricity bill post-commissioning of the RTS system.

What is Delhi solar energy policy 2023?

The Delhi Solar Energy Policy 2023 (hereafter, 'the policy') was notified in March 2024 with the goal of increasing installed rooftop solar capacity to 750 MW within the state and accessing utility-scale solar capacity of 3,750 MW from outside the state.

What is Delhi solar energy policy 2016?

Delhi Solar Energy Policy, 2016 would be applicable for any solar energy generating system with a capacity of 1 kWp or more. Delhi is blessed with almost 300 sunny days and the rooftop space available for solar panels is estimated to be 31 sq. km, giving Delhi a solar energy potential of 2500 MWp (annual Generation approx. 3,500 million kWh).

Does Delhi need solar energy in 2022?

Delhi is a populous city. In 2022, the state's electricity demand peaked at 7.6 GW in December. Can this rising demand be met through solar energy? Yes, it can! The current installed solar capacity in the city is 213 MW. However, the state government also sources a massive amount of clean energy from out-of-state solar parks and farms.
