

Are solar panels a good investment in New Jersey?

Solar panel systems in New Jersey are expensive, but incentives from the state and federal governments can help you reduce the upfront cost. Between the federal tax credit and other state-specific incentives, you can save thousands on solar panels, making them well worth the investment.

How much does a solar system cost in New Jersey?

The Residential Clean Energy Credit, formerly known as the federal investment tax credit (ITC), can reduce your solar panel system's cost by 30%. Your entire system qualifies for this incentive, including equipment, labor, permitting, and sales tax. The average cost for a 5 kW solar panel system is around \$13,833 in New Jersey.

What solar incentives are available in New Jersey?

The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some states and utility companies offer additional solar incentives, saving homeowners even more money. Here are the solar incentives available in New Jersey:

Is New Jersey a good place to install solar PV?

New Jersey is a national leader with regards to installed solar PV capacity, with more than 5 gigawatts (GW) from over 210,000 individual solar PV installations. New Jersey has an interactive Solar PV dashboard that provides a summary of solar PV installations in New Jersey's counties.

How big is a home solar system in New Jersey?

The average size of a home solar panel system in New Jersey is 8 to 12 kilowatts (kW). New Jersey offers attractive incentives for solar system installation, including 1:1 net metering and a program that pays \$85 for every megawatt-hour of energy your system generates, not just on the excess amount that you send back to the grid.

Is New Jersey a good state for solar energy?

New Jersey is one of the best states for solar energy due to its combination of high electricity rates and robust incentive programs. Homeowners can benefit from the Successor Solar Incentive (SuSI) Program, which offers valuable credits for the energy their solar systems produce.
