

How much do solar panels increase your home value?

While every home is different, there are a few rules of thumb for how much solar panels increase your home value. Zillow analyzed a year's worth of home sales in 2018-2019 and found that homes with solar panels sold for 4.1% more on average than comparable homes without.

How much do solar panels add to a home?

This is an increase from the 4.1% figure found by Zillow in a 2019 study. With the median value of a home in 2024 at around \$417,000, solar panels could add over \$28,000 in value! Keep in mind that every home's situation is different, and several factors will impact how much solar panels increase your home's value.

How much do solar panels add to a home in 2024?

With the median value of a home in 2024 at around \$417,000, solar panels could add over \$28,000 in value! Keep in mind that every home's situation is different, and several factors will impact how much solar panels increase your home's value. What factors determine how solar panels will affect my home value?

Does a solar energy system add value to your property?

The conventional wisdom from HGTV and home improvement magazines is that updating your kitchen, renovating your bathroom, or building an addition are the smartest ways to increase the value of your property. But there's another home improvement that you may not realize adds to your property's value: installing a solar energy system on your roof.

Do solar panels increase home value if financed with a loan?

Solar panels can still increase your home value when financed with a loan. The original homeowner will usually pay off any remaining solar loan balance at the time of sale. While loans could be passed on to a new buyer, it is not common practice and can add time and negotiations to the selling process.

Do solar panels increase property taxes?

If solar panels raise the resale value of your home, you may also see an increase in your property taxes. Based on the median home value in the U.S., homeowners can expect solar panels to increase their annual property taxes by between \$160 and \$630. But like most things in the solar industry, everyone's situation is unique!
