Why should I choose a local solar installer?

SolarReviews data, from tens of thousands of reviews of solar companies, shows that local, family-owned solar companies record far higher levels of client satisfaction. This is why we recommend going with a company that's local to your area rather than a nationwide installer. How can I find solar installers near me?

What makes a good solar installer?

Those would be the installers who use high-quality products, demonstrate superior workmanship, have established track records, and deliver reliable after-sales support. By the same token, we also want to weed out the bad solar installers: the companies that perform low-quality installations and disappear once the job is done.
