

Are solar phone chargers a good idea?

Solar phone chargers are a great way to stay powered up on the go. They are portable, lightweight, and can be used to charge your phone or tablet. Whether you're an outdoor enthusiast or simply looking for an eco-friendly way to charge your devices, read our list of the best solar phone chargers and power banks.

What is the best solar charger for iPhone?

The best solar charger for an iPhone is our top pick: the Blavor Solar Powerbank. It can hold enough power to charge your iPhone up to three times in just one charge. Are there alternative solar chargers worth considering? We offered a variety of solar chargers based on budget, power capacity, and much more.

What is a solar phone charger?

Solar phone chargers are portable power banks with USB-A or USB-C outlets that can be used to charge your phone or other devices on the go with solar energy. These machines are popular with outdoor athletes, like hikers and backpackers, but they're also used by everyday individuals who want access to power wherever they are.

What can you charge with a solar charger?

Solar chargers and power banks use the sun to generate electricity, so you don't need a wall outlet. You can use that electricity to power your devices, charging things like your mobile phone, laptop, fan, or car battery. It's convenient, especially when inclement weather knocks out power.

How many devices can a solar phone charger charge?

With four large, high-performance solar panels and 15 watts of energy output, this charger can power up to three devices pretty efficiently. According to the company, it can charge a supported device to 50% in 30 minutes. This solar phone charger is heavier than others on this list, so it may not be best for those who already have a heavy pack.

What is the best solar power bank portable charger?

The BLAVOR Qi Solar Power Bank Portable Charger is considered the best budget option. It is compatible with various devices such as iPhones, Samsung phones, Android devices, Windows devices, GoPro cameras, GPS devices, tablets, and most USB charging devices.
