

Do Solar Contractors need a license?

State regulation and licensing of solar contractors continues to evolve as the industry grows. Currently, 12 states and Puerto Rico have solar contractor licensing requirements. The contractor licensing requirements described here refer to solar-specific licensing requirements, rather than general electrical or plumbing contractor licenses.

Are there any states that do not have solar licensing requirements?

At present, there are still states that do not have dedicated solar licensing requirements. These states may have other requirements, which are listed below: Since the solar power industry is fairly new, these regulations can change anytime.

Do you need a license to sell solar panels?

Some states require businesses to obtain specific licenses to sell solar panels. If you solicit, sell, negotiate, or execute home improvement contracts for a licensed contractor, you may need to register with the Contractors State License Board (CSLB). What other licensing and registration requirements impact solar contractors?

When did solar contractor licensing start?

Solar contractor licensing commenced in the 1980s alongside the introduction of incentive programs for solar water heating. State regulation and licensing of solar contractors continues to evolve as the industry grows. Currently, 12 states and Puerto Rico have solar contractor licensing requirements.

Do Solar Contractors need a license in New Jersey?

Solar contractors in New Jersey must meet certain licensing requirements. To install solar photovoltaic systems in the state, contractors must hold a Home Improvement Contractor (HIC) registration. This registration ensures that contractors meet the necessary standards to carry out solar installations in residential properties.

How do I get a solar business license?

Many states require solar businesses to obtain a state contractor license. Depending on the state this could be a specific license for solar contracting or residential/home improvement. Solar business licenses are usually managed by a state contractors board. They administer examinations, evaluate experience, and issue licenses.
