

How do I switch to solar energy in Maitland?

If you want to make the switch to solar energy, please contact our Maitland solar installation team on 02 4925 7718 or fill in our contact form and a member of our team will be in touch with you shortly to discuss your requirements.

How many kilowatts of solar can I install in Maitland?

In some areas network operators request that you contact them first, but that does not appear to be the case in Maitland. Maitland households can install up to 4.99 kilowatts of rooftop solar if they have single phase power. The maximum is determined by the size of the inverter and not the total capacity of the solar panels.

Who is Maitland Power?

Maitland Power is an Electrical services company owned and managed by Stuart Power. They are centrally located in Aberglasslyn and provide efficient and friendly services to Maitland, Newcastle and the Hunter Valley.

How much sunlight does a roof in Maitland get?

Solar panels on a typical north facing roof in Maitland will receive an average amount of sunlight energy equal to about 5.0 hours of full noon sunshine a day. This puts Maitland on par with Canberra and ahead of Sydney.

Does Maitland have a flood?

However, the lower average rainfall has never stopped Maitland from having floods of enormous size, with reports of floodwaters reaching 24.4 meters in 1806. Solar panels on a typical north facing roof in Maitland will receive an average amount of sunlight energy equal to about 5.0 hours of full noon sunshine a day.

Is Maitland hot or cold?

Maitland can be hot in summer and cold in winter with an average high of 30.5°C in January and an average low of 5.5°C in July. Rainfall is considerably lower than in Sydney, which is only 167 kilometers by road to the south.
