

Who are Orange Solar Systems?

Orange Solar Systems Ltd is a family-run business specialising in the design and installation of solar PV panels. Based in Southampton, Hampshire, we cover the South of England. We offer a comprehensive service from design to installation for residential as well as commercial projects.

How many solar power plants will Orange have in 2024?

Total will supply Orange with 100 GWh a year of renewable electricity over a period of 20 years. This agreement will thus enable the development, by 2024, of a dozen new solar power plants spread throughout metropolitan France, with a cumulative capacity of 80 MW.

Why is orange deploying a solar farm in France?

To fulfill its environmental commitments, Orange is increasingly turning to renewable sources of energy and wishes to accelerate this transition by making the most of solar energy on its tertiary and technical sites. The Group will therefore deploy its first solar farm in France and in Europe [...]

What is Orange Power?

Orange Power is an all-purpose cleaner and deodorizer concentrate for industrial, commercial & institutional use. It is completely biodegradable and environmentally safe. Orange Power removes grease, oil, road film, dirt & heavy soils from most surfaces, leaving a fresh orange scent behind.

Where can I buy orange power products?

Orange Power products are available at most major supermarkets. Find a stockist near you. Orange Power is made by Australian owned and based company Aware Environmental. Check out Orange Power's sister brand Aware Sensitive for more laundry, cleaning and air freshener products that Planet Ark proudly endorses.

Why did orange sign a contract with total?

By signing this contract with Total, Orange is acting in line with its objectives, which is to reduce its direct CO2 emissions by 30% compared with 2015 and to integrate 50% renewable energies into its electricity mix by 2025.
