

What are the best outdoor solar lights?

For an affordable lighting option that adds ambiance to your outdoor space, we recommend the 33-foot-long Brightown Outdoor Solar string lights. Available in seven colors (we tested white), these fairy lights survived all of our durability tests and were easy to install, with only two stakes needed for the solar panels.

What type of outdoor solar light do I Need?

The type of outdoor solar light you choose will depend on the area that you're trying to light, as well as the ambiance you're trying to create. Soft dim light can be perfect for an alfresco dining experience, whereas bright white light is ideal for a practical lighting solution. The choice is yours!

What type of bulbs do solar-powered outdoor lights use?

Almost all solar-powered outdoor lights use LEDs, with either integrated or replaceable bulbs. Because they are designed for outdoor use, most solar-powered lights offer decent water and weather resistance.

How do solar-powered outdoor lights function?

Solar-powered outdoor lights work by converting sunlight into energy to power their ultra-bright bulbs, which can measure up to 10 lumens when fully charged. These lights illuminate the ground in a decorative pattern that resembles the sun, turning your entire yard into an elegant light show.

How do you mount outdoor solar lights?

Outdoor solar lights can be mounted like traditional light fixtures, using screws. Our best wall-mounted pick, the Better Homes & Gardens Solar Dusk to Dawn Decorative Outdoor LED Light, is an example of this.

Where can you use solar-powered outdoor lights?

You can use them just about anywhere there is sunlight exposure--no outlet required. They're powered by solar cells that convert sunlight into electricity, which is then stored in an internal battery.

In our Yonkers, N.Y., facility, we mount samples of each light on a mobile cart that we park outdoors for roughly 5 hours every day. We test on both sunny and cloudy days.
