Who is Johnstone electrical & Sunvalley solar?

Johnstone Electrical & Sunvalley Solar are a well-respected Shepparton based business operating in the Goulburn Valley and surrounding area since 1995. Solar Energy, Shepparton, VIC 3630. We sell, install and service solar hot water systems.

How do solar panels work?

Solar panels convert sunlight into clean green DC electricity. If you generate more electricity than your household uses, the excess electricity goes back to the grid, adding a credit to your electricity bill. The inverter converts DC electricity into useable AC electricity. During peak periods and at night, electricity is imported from the grid.

Is Shepparton a good place to live?

A sleepy and wonderful city in Victoria's north east, Shepparton has a proud history; first as a sheep station, then as a major railway town and finally as a major agricultural and manufacturing city. With a strong focus on agriculture and primary industry, the city of Shepparton already relies on its ample amounts of solar energy resources.
