

**How do I pay for solar?**

The choice comes down to your preference. We have no deposit, finance available. With up to 120 month terms, you can pay for your solar with your power bill savings. Using finance can be a good way to get into solar sooner or to keep your cash savings in the bank. Request a free on-site quote and we'll talk you through the payment options.

**Can I pay for solar with my power bill savings?**

With up to 120 month terms, you can pay for your solar with your power bill savings. Using finance can be a good way to get into solar sooner or to keep your cash savings in the bank. Request a free on-site quote and we'll talk you through the payment options. Fronius inverters are rated the #1 solar inverter in Australia.

**What does a solar PPA homeowner pay for?**

When a homeowner enters a solar PPA, they do not own the solar panels on their roof, but instead pay a monthly payment to a solar company for each kilowatt hour of solar the system produces at a rate lower than their local utility rate. They pay for the solar energy produced, not the panels themselves.

**What are the best ways to pay for a solar system?**

The two most cost-efficient ways to pay for your solar system are through a cash purchase or a solar loan. These two options are generally the best ways to go solar because you either own your own system right away or by the end of your loan.

**What is a solar power purchase agreement (PPA)?**

A solar power purchase agreement (PPA) is a popular financing option for installing solar panels on your roof. With a PPA, you can install a home solar system with no upfront costs. Instead, you pay the solar company every month for every kilowatt-hour of solar energy the panels produce.

**Should you buy a solar system or pay off a mortgage?**

When deciding how to pay for solar panels, you have two main options: buying the system outright or financing it. With a cash purchase, you buy your system for its full cost upfront and have no payments moving forward. Alternatively, a solar loan requires fixed monthly payments over a term of five to 25 years, similar to financing a car or paying off a mortgage.
