What is a Power Purchase Agreement (PPA)?

A power purchase agreement (PPA) is a financial agreement where a third party (like a solar company) owns and maintains the solar panel system on your property, and you agree to purchase the electricity generated by the system at a predetermined rate. Many homeowners looking for an easy, low-cost, maintenance-free way to install a solar panel system move forward with a PPA.

Who benefits from a solar power purchase agreement?

In a solar power purchase agreement, the host customer and the solar services provider both benefit. The host customer receives stable and often low-cost electricity, while the solar services provider or another party acquires valuable financial benefits, such as tax credits and income generated from the sale of electricity.

What is a solar PPA agreement?

A solar PPA (Power Purchase Agreement) is an agreement where a solar developer retains responsibility for operating and maintaining the solar energy system. Under this agreement, the developer performs annual inspections, repairs any damage, and monitors the system to ensure its performance is continually optimized.

Who covers the costs of buying solar equipment in a PPA?

In a power purchase agreement (PPA), a solar company or PPA financier covers all the costs of buying solar equipment and installing it on your roof. Financing a solar panel system with a PPA is similar to leasing or "renting" a solar panel system.
