

Are there solar rebates in Arizona?

There are no statewide Arizona solar rebates, but it does have the AZ solar tax credit. Arizona's tax credit is equal to 25% of system costs up to \$1,000, and it reduces your state income tax liability. There may be local energy efficiency rebates and financial incentive programs available to you.

Does Arizona have a solar tax credit?

Arizona's state tax credit equals 25% of solar power system costs, up to \$1,000. Most solar installations will earn the maximum \$1,000 incentive. The Arizona solar tax credit will lower your state income tax liability. Much like the federal tax credit, you won't get these savings until you file your return for the year. Quick Facts

How do solar incentives work in Arizona?

Arizonans can take advantage of the statewide tax credit, tax exemptions and local rebate programs on top of the 30% federal solar tax credit to dramatically reduce their total system cost. We've extensively researched all of the solar incentives in Arizona so you can understand how each one works and get the best deal on your solar system.

What tax benefits does Arizona offer for solar panels?

In addition to the great rebates and incentives above, Arizona also offers tax exemptions for solar panel systems. The solar sales tax exemption ensures that you won't have to pay a sales tax on your system, while the solar property tax exemption means you don't need to pay a higher property tax for adding solar panels to your house.

Are solar batteries tax deductible in Arizona?

There is no statewide solar battery rebate or incentive in Arizona. However, energy storage systems qualify for the 30% federal tax credit as long as the battery has a capacity rating of at least 3 kWh. A battery like the Tesla Powerwall 3 costs about \$16,000 when fully installed, earning it a tax credit of \$4,800!
