

Should you rent or buy a solar system?

When you rent a solar system, the solar company remains responsible for the system's maintenance, repairs, and insurance. This relieves you of the burden of maintenance costs and ensures hassle-free operation. Instead of purchasing the solar system outright, you make monthly payments to the solar company.

What is a rent-to-own Solar System?

In this landscape of innovation, the Rent-To-Own (RTO) solar programme has emerged as a beacon of opportunity, empowering homeowners and small businesses to embrace solar panel systems without the weight of initial expenditures.

What is rent-to-own solar leasing?

Rent-to-own solar leasing means you can pay off your solar system in fixed monthly instalments and take on full ownership at the end of the solar lease agreement. Merchant West is one of the largest privately-owned financial institutions in South Africa. Lease a solar system that suits your home with end-to-end financial services.

Should I lease a solar system?

In many cases, leasing a solar system makes it easier to afford your ideal solar system and immediately enjoy the benefits. How much does a solar system cost? A solar power system usually costs R30 000 to R75 000 in total, depending on the size of the property and the system requirements.

Does Sinetech offer a rent-to-own Solar System?
