

What is a solar service contract?

As solar installations become increasingly popular, it is essential to establish clear and comprehensive agreements between service providers and customers. This is where solar service contracts play a vital role. The solar industry revolves around the installation, maintenance, and operation of solar power systems.

Do you need a solar services agreement?

Yes, you need a solar services agreement to clearly outline your responsibilities when buying solar energy. This agreement should be included in your solar quote template, which covers basic requirements for both residential and commercial installations. Additionally, Form 5695 is a crucial document provided by the IRS for homeowners exploring clean energy.

What is an energy Service Agreement (ESA)?

An energy service agreement (ESA) is a mutually beneficial agreement between an investor or developer and a customer looking to install or upgrade renewable or energy efficiency systems like solar, CHP and battery energy storage.

Can a solar service contract include upgrades or expansions?

Yes, a solar service contract can include provisions for system upgrades or expansions. These provisions can address situations where the customer may desire to expand the solar power system's capacity or incorporate additional features or technology in the future.

Can a solar service contract be transferred to a new service provider?

Yes, a solar service contract can be transferred to a new service provider under certain circumstances. The transfer process should be clearly outlined in the contract to facilitate a smooth transition. Some considerations for transferring the contract to a new service provider include:

Can a solar service contract include maintenance and Repair Provisions?

Yes, a solar service contract can include provisions for system maintenance and repair to ensure the ongoing performance and longevity of the solar power system. Considerations for including maintenance and repair provisions in a solar service contract may include:
