

What is a Rainbowmaker®?

Kikkerland's popular collection of magical RainbowMaker®; designed by David Dear are beloved by all ages. Our standing RainbowMaker®; can sit on a desk, counter or window sill and work its rainbow magic. The cleverly designed solar panel at the base of the device will rotate the Crystal and refract light in all directions.

How does the Kikkerland Rainbow Maker work?

This innovative device harnesses solar power to create mesmerizing rainbow effects in any room. This solar-powered device rotates like a disco ball, expertly refracting sunlight to produce captivating, ever-changing rainbow patterns dancing around the room. EASY INSTALLATION - Using the Kikkerland Rainbow Maker is a breeze.

What powers the RainbowMaker®?

The RainbowMaker®; is powered by the power of the sun. The cleverly designed solar panel will rotate the crystal and refract light in all directions. Our RainbowMaker®;, all have clear housings that allow you to watch the inner working gears rotate in perfect synchrony.

How does a rainbow maker work?

A beloved decorative item, the rainbow maker utilizes direct sunlight and a rotating crystal to produce stunning rainbows. It is a compact, solar-powered device that can be suspended in a sunlit window. The gadget functions by absorbing sunlight through a solar panel, activating the gears enclosed in its transparent housing.

Why is my Rainbowmaker not producing rainbows?

Your Rainbowmaker might not be producing rainbows due to common issues like inadequate light, a jammed crystal gear, or dust and debris on the solar panel. This innovative device harnesses solar power to create mesmerizing rainbow effects in any room.
