

Does Haryana have a solar roof subsidy scheme?

Haryana's tiny, efficient home solar plants provide enough electricity for many household needs. The government's solar rooftop subsidy scheme lowers solar panel system upfront costs in Haryana and other states. It aims to encourage small and medium-sized residences to use solar energy for its benefits.

How much does Haryana subsidize solar plants?

The state subsidizes 30% of the typical cost under the Haryana Rooftop Solar Plant Subsidy Scheme. All residential, institutional, and social sectors receive a maximum of Rs.20,000 per kilowatt subsidy. The Haryana government is pushing new solar plants, but not as much as the Rooftop Solar Plant Scheme.

How to apply for solar subsidy in Haryana?

If you wish to install a home solar energy system through the simplified process of the government's solar subsidy program, you must visit the official website known as the National Portal for Rooftop Solar. Follow these straightforward steps to apply for solar subsidy in Haryana online: Step 1 - Registration:
