Sunrun offers free energy consultations in 20 states. Their solar advisors provide one-on-one consultations to guide you through the details of their customized residential solar energy systems. Sunrun is available in California and Texas, and offers end-to-end solar services in Texas, Colorado, and Florida.

How do I choose a solar provider?

Expertise, track record, and experience: Look for a provider with plenty of experience installing solar systems. The best providers often have an extensive portfolio of completed projects with a positive track record. If your provider doesn't show completed projects on its website, ask a representative to see a few before committing.

Who is the best solar company in the Northeast?

Trinity Solar, which has served the Northeast for more than 28 years, is a top choice. LGCY Power is another excellent option, offering one of the best guided solar consultations and detailed online articles about the solar installation process. They also partner with Sunrun, one of our picks for top solar companies.
