Who is solar power systems?

We are Solar Power Systems, your specialist in solar panels, heat pumps, pool heating, and air conditioning for homes and businesses on the Costa Blanca. From our location in Calpe, Alicante, we offer high-quality installations and tailored service. Since our start in 1994, we have had one goal: to make the most of the sun hours in this region.

Is the Costa Blanca a good place to install solar panels?

Overall rating: 5.0 based on 18 reviews. Solar energy is a great way to power your home or business, and the Costa Blanca is a great place to install solar panels. With 300 days of sun per year, the Costa Blanca is one of the sunniest places in Europe, making it an ideal location for solar power systems.

How do solar panels work in Spain?

Solar panels, also known as photovoltaic systems, use semiconductor technology to convert energy from sunlight into electricity that can power your household for free. The sun has been shining on Spain's self-produced energy sector ever since new regulations were approved by the Socialist (PSOE) government.

How do solar panels work?

Solar panels take advantage of one of nature's most powerful yet free resources: the energy produced by the sun. Solar panels, also known as photovoltaic systems, use semiconductor technology to convert energy from sunlight into electricity that can power your household for free.
