

What is a Casio solar watch?

CASIO's solar field can also be manufactured in any color and design. An accumulator in G-SHOCK solar watches saves "superfluous" energy and releases it when the watch is in darkness. G-SHOCK Solar watches are always equipped with an accumulator. The accumulator is charged automatically and does not require manual activation.

Which Casio watches are supported by the Solar System?

Many G-SHOCK men's watches are supported by the CASIO Tough Solar System. Whether you are a fan of the iconic square design or a collector of unusual special models: There is a solar-powered G-SHOCK for every taste. If you travel a lot and precise time is important to you, then you will love radio-controlled solar watches.

What can Casio Tough Solar watches use as a light source?

The Casio Tough Solar System can use both natural or artificial lighting, even very weak light sources to sufficiently operate their timepieces. Solar watches use the power of light to run.

Are Casio solar watches good?

Moreover, Casio's solar watches feature their proprietary Tough Solar technology. This enhances durability and waterproof capabilities while maximizing the efficiency of the solar panels. Over the years, Casio has prioritized waste reduction and minimizing environmental impact throughout the watch manufacturing process.

How much sunlight does a Casio / G-Shock watch use?

With CASIO /G-SHOCK watches, just 8 minutes of direct sunlight gives you 1 day's worth of power - any light source - artificial light such as lightbulbs or natural sunlight. Solar powered watches have a power reserve of up to TWO YEARS\* (\*times may vary, please refer to your watches manual).

Does a Casio Tough Solar watch need a battery?

A Casio Tough Solar watch never requires a battery. This Casio watch is powered by Tough Solar technology, which uses light (even artificial) to charge the timepiece and keep it working for many months even after darkness.
