

Does Windsor have solar panels on its buildings?

Windsor is installing solar panels on 12 city buildings, adding to the three that already have them: the WFCU Centre, the downtown aquatic centre, and the Transit Windsor headquarters. This initiative is estimated to save the city 1.1 million kilowatt hours each year and more than \$220,000 in annual electricity costs.

What is Windsor Energy?

Windsor Energy is a privately-held independent oil and gas company headquartered in Oklahoma City, Oklahoma. Acquisition, exploration, development, and production of high quality oil and gas reserves are the focus of Windsor Energy throughout the United States.
