

Solar powered adaptive containers for everyone

Solar Pro. designs, manufactures, and installs reliable self-sustaining solar powered container for village electrification in faraway areas from the main electricity grid, to commercial estates. Our ...

:SPACE : metalab"SPACE", ...

We've covered the use of solar powered structures made from shipping containers in the past, such as New York's first solar powered electric vehicle recharging station and the ...

SPACE stands for Solar Powered Adaptive Containers for Everyone and that's exactly what they are. The 140 square foot off grid structure comes with 20 rooftop solar ...

SPACE (Self Powered Adaptive Container for Everyone) is a secure and robust portable building fabricated from recycled, high cube shipping containers and equipped with ...

SPACE (Solar Powered Adaptive Container for Everyone) was founded in 2008. After success with the inaugural grid-tied sales office, the team developed a mobile off-grid prototype aimed at applications that require ...

If portability is the best quality a recycled shipping container building can have, then these super compact solar-powered SPACE containers surely fit the bill. In addition to ...

SPACE is a reconditioned 6 metre x 2.4 metre shipping container fitted out to act as a work space. Capable of supporting up to 5 kilowatts of solar panels, SPACE also includes a ...

1/9 SPACE by Adaptive Container. If portability is the best quality a recycled shipping container building can have, then these super compact solar-powered SPACE ...

Now, a team of designers from Houston, Texas, have designed a self-sustained solar powered home, using a shipping container. This house, called the SPACE (Solar Powered Adaptive Container for Everyone), uses an ...

We've covered the use of solar powered structures made from shipping containers in the past, such as New York's first solar powered electric vehicle recharging station and the ZubaBox, a ...

Houston recently awarded a \$1.35 million contract to UHGBC to construct the SPACE (Solar Powered Adaptive Containers for Everyone) stations, which will be built and in ...

Solar powered adaptive containers for everyone

These include the Solar Powered Adaptive Container for Everyone (SPACE), an upcycled shipping container paired with a flexible solar panel rack system that folds up (for transport or extreme weather). SPACE made local ...

SPACE (SELF POWERED ADAPTIVE CONTAINER FOR EVERYONE) Nigeria founded by Oloye Abiola Iyiola is a manufacturer of Mobile office-containers equipped with solar power, ...

The solar-powered containers, called SPACE (" Solar Powered Adaptive Container for Everyone "), were created by a joint venture of local architecture firm Metalab, Joey Romano's Harvest Moon Development, and ...

1/9 SPACE by Adaptive Container. If portability is the best quality a recycled shipping container building can have, then these super compact solar-powered SPACE containers surely fit the bill.

The solar-powered containers, called SPACE ("Solar Powered Adaptive Container for Everyone"), were created by a joint venture of local architecture firm Metalab, Joey Romano's Harvest Moon Development, and ...

SPACE- Solar Powered Adaptive Container for Everyone, may not have been designed to be a home, but it sure can double up when needed. A collaborative project between Metalab, Harvest Moon Development and ...

By combining the container strength with engineered green building components, this system can withstand hurricane force winds, travel securely with panels attached and wired, and be operational within an hour of ...
