

Solar storage and smart energy expo northern california

What is the California Solar and Storage Expo?

The California Solar and Storage Expo is an interactive event for solar, smart energy, and storage professionals working in and with the California solar market. It allows attendees to make powerful business connections with each other.

Will California Solar & Storage Expo be 100% renewable by 2045?

California Solar and Storage Expo is targeting 100% renewable by 2045, and the one major piece to reaching this goal is the requirement that all new homes being built in 2021 are required to have solar installed.

What is the Energy Expo?

The Energy Expo is a bilingual trade show produced by Show Winners Corporation, a leading events promoter company with over 20 years of experience.

What is a solar trade show?

A solar trade show, also known as a solar exhibition or expo, is an event organized by reputable solar organizations where solar companies can showcase and demonstrate their latest products to possible buyers. This is also where sellers get to network with other businesses and buyers.

What is Energy Storage North America (ESNA)?

Energy Storage North America (ESNA) is a conference, exhibition, and networking event that covers all applications of grid storage in North America. It was founded in 2012 to help advance the understanding and deployment of energy storage. ESNA is now in its seventh year.

What is a B2B solar event?

A B2B solar event is a premier platform for solar industry professionals to advance their business, expand their education, and drive networking. It showcases the latest energy technologies, services, companies, and organizations that aim to contribute to Earth's transition into a more sustainable future.
