

What are the different types of shipping container doors?

There are various shipping container doors, from the standard double doors to the less common roll-up and sliding glass doors. Each type has its own set of unique features, designed with a specific purpose in mind. We'll break down each type to help you decide which kind of door would best suit your needs.

Which shipping container door is right for You?

Cargo doors are the right choice when you are strictly using your shipping container to store items. Keep in mind they are less convenient than roll-up or garage doors. However, if you don't need access to the content too often, this is an affordable, simple option without the need for modifications or installation. 2. Man/Personnel Doors

What is a shipping container door?

The Ultimate Guide to Shipping Container Doors For those navigating the seas of shipping logistics, container doors aren't just for securing shipping containers--they're critical for transportation and storage. Shipping containers come in all shapes and sizes, but their doors serve a container's unique purpose.

What types of doors can be added to steel shipping containers?

Doors of all types can be added to steel shipping containers, see our list below for examples. Double cargo doors on one side come as a standard feature. Below are other door options. Double Door Containers: Double door containers are available in 20' and 40'. They are called 20' double door and 40' double door.

Why should you use cargo doors in a shipping container?

They use a cam and lock system which ensures that the contents inside the container are protected against theft and environmental threats. Use cargo doors if you need to place large items easily inside the container, even by forklift. immediate convenience is less of a priority. 2. Shipping Container Personnel Doors
