

What are the different types of Euro stacking containers?

Our Euro Stacking Containers come in a variety of beneficial ranges, including solid sides, vented sides, colours, folding, low cost, heavy duty, clear, with lids, conductive, food grade, with internal glass dividers & component inserts and much more.

Where can I buy a Euro stacking container in the UK?

Plastor has one of the largest and best value ranges of Euro stacking containers in the UK! Please contact us if you require any assistance or advice. Euro Containers, also known as Euro Crates or Euro Bins, are heavy duty stackable storage boxes. Solid, vented and folding boxes. With or without lids.

What are stackable Euro containers?

Stackable euro containers are designed to fit standard European sized wooden and plastic pallets. Vertical sides allow for the maximum usable volume. The coloured range of food grade plastic euro containers is also resistant to acids and oils, making them ideal for food preparation and storage.

How do Euro containers stack?

This allows for systematic stacking, for example x2 400x300mm Euro containers can securely stack side-by-side on top of a 600x400mm Euro container, and so on. Euro containers can also uniformly sit onto 1200x800mm Euro pallets and 1200x1000mm UK Standard ISO pallets for optimal storage and transportation.

What is a Euro container?

We stock sturdy plastic Euro containers (also called storage Euro bins) in a range of sizes and heights, with load-bearing capacities between 150kg and 250kg. Combined with their resilient design, this versatility makes these Euro stacking storage boxes the ideal choice for trolleys in warehouses, catering companies, distribution centres, and more.

How do I choose a Euro stacking box?

Many of our Euro stacking boxes are available with your choice of hand holes or closed shell handgrips. Opting for a box with ergonomic hand holes helps with ventilation and allows users to distribute weight effectively for easy handling.
