

Who is the new CEO of solid power?

Solid Power, the US solid-state battery specialist backed by Ford and BMW, among others, is looking for a new CEO. As the company announced, Douglas Campbell will retire from his functions as CEO and as a member of the Board of Directors with immediate effect. President David Jansen has been appointed interim CEO of Solid Power.

Who is Doug Campbell?

Doug Campbell is the co-founder and CEO of Solid Power, an industry-leading producer of all-solid-state batteries for electric vehicles. The company is backed by prominent investors including Ford, BMW, Hyundai, and Samsung.

Who owns solid power?

Campbell was one of the founders of the company in 2011, when it was a spin-off from the University of Colorado. Today, Solid Power is one of the world's most promising developers of solid-state battery cells.

Who is solid power CEO David Jansen?

The Solid Power Board has appointed David Jansen, the company's Chair and President, as Interim Chief Executive Officer. Solid Power's Board of Directors has commenced a comprehensive search process to identify a permanent CEO with the assistance of a leading, independent executive search firm and will consider internal and external candidates.

Who is solid power?

Today, Solid Power is one of the world's most promising developers of solid-state battery cells. In the summer, the US company announced that it had completed the installation of its pilot production line and planned to deliver the first cells for qualification tests to its investors and customers Ford and BMW before the end of the year.

Which companies have backed Solid Power?

Solid Power is backed by several prominent investors, including Ford, BMW, Hyundai, and Samsung. Roland Berger Partner Wolfgang Bernhart recently spoke with Campbell about Solid Power's USD 1.2 billion valuation, what distinguishes its battery technology from others, and how it impacts the supply chain.
