

What is a solo 260 one-hand sprayer?

260 Battery-Powered One-Hand Sprayer, 1-Liter The SOLO 260 battery one-hand sprayer, is a practical and universal helper in the garden and around the house. No hand pumping is required due to the Solo 260's compact and powerful electric pump designed to disperse water, liquid fertilizer and all approved plant protection chemicals.

What is a solo pressure sprayer?

The SOLO pressure sprayers that are worn on the shoulder with different fill capacities offer ample coverage for several more square metres. A few pump strokes is all that is needed to build up the maximum spray pressure in transparent plastic containers. The adjustable universal hollow-cone nozzles can also be used for variable applications.

Are solo sprayers battery-operated?

Battery-operated sprayers from SOLO are very quiet, emission-free and deliver the necessary operating pressure entirely without manual pumping thanks to the powerful electric motor. This allows fatigue-free work, even on larger areas.

What is a solo 460 manual sprayer?

In addition, it has a light carbon telescopic wand measuring 50 to 90 cm for even better reach. The small SOLO 460 Li battery-operated manual sprayer is a practical and universal aid in the garden and home. The small but powerful electric pump delivers the spray liquid without the need for pumping by hand.

What is a solo sprayer & Mister?

SOLO's crop protection sprayers and misters allow you to effectively spray protective and maintenance agents such as insecticides, fungicides, herbicides or fertilisers on your plants so that they grow healthily. SOLO also has a high-quality spreader in the range for the even distribution of granules such as seeds and fertiliser.

How does a solo 441 backpack sprayer work?

Work efficiently and easily even on difficult terrain - with powerful and easy-to-use sprayers and misters from SOLO, plant protection and cleaning agents can be applied efficiently, accurately and with minimum effort. The extremely light SOLO 441 battery-operated backpack sprayer has an electric pump that is operated by a lithium-ion battery.
