

What is spot power's solar club loyalty program?

Spot Power's Solar Club Loyalty Program is designed for green-minded homeowners with micro-generation systems. It offers premium rates for your solar-generated electricity and even gives you cash back on the energy you need from the grid. Plus, with their flexible rate options, you can adjust your plan as your generation varies with the seasons.

What is the Spot Power Solar Club?

The Spot Power Solar Club is a loyalty program for microgenerators of solar power in Alberta. In addition to traditional sources of energy, Spot Power enables consumers to select the percentage of their monthly energy that they would like to be green or renewable.

Who is spot power?

Launched in 2008, as the first privately owned utility retailer competing in Calgary against ENMAX, Spot Power is part of the UTILITYnet group of companies founded by Madeline Low and Nick Clark. Spot Power retails electricity, natural gas, and Internet services to residential, farm, and small business owners in over 450 Alberta communities.

What is a solar club?

A solar club is an offering that encourages people to invest in solar energy and become microgenerators. Members of Spot Power's Solar Club have access to exclusive electricity rates and can switch between high and low export rates without penalty.

What is a solar club TM electricity rate?

Solar Club(TM) members can switch between two electricity rates designed for small solar micro-generators who are on a bi-directional cumulative meter. The High Export Rate applies to electricity generated and sent back to the grid.

What are the benefits of joining the Solar Club?

By joining the Solar Club, members can save money and have access to exclusive electricity rates. They also have the ability to switch between a high export and low export rate without penalty. The Solar Club encourages more people to invest in solar energy by becoming microgenerators.
