

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

Which fast-charging station will work with my car?

To find a compatible fast-charging station for your car, download the Chargeway app. It uses a color-coded number system to eliminate confusing names. Alternatively, you can identify the type of charging port your car has: CHAdeMO (DC fast charge) or SAE J1772 (AC level 2).

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

Where do most electric vehicles charge?

According to the Department of Energy, most plug-in owners charge at home over 80 percent of the time. For some, this could easily be 100 percent. Although public charging stations are becoming more common in urban areas, the vast majority of electric-vehicle charging in the U.S. actually happens at home.

How many megawatt charging stations are there in China?

On March 17, BYD released the 10C megawatt charging stations suitable for passenger electric cars with the 1000V high-voltage system. They can charge 400 km of range in 5 minutes. The company's chairman Wang Chuanfu announced that BYD will establish over four thousand megawatt charging stations across China.
