

What is a solar charger controller?

A solar charger controller is a device that charges batteries and runs loads from solar power. It includes an aluminium panel and features switched LED lights and an automatic 35 degree thermostat that controls a fan to cool the heat sink on the solar controller. It has the capacity to run fridges, lights, and power.

What is a sunsaver charge controller?

SunSaver charge controllers for off-grid solar system battery charging. The Morningstar SunSaver Charge Controller offers many of the advantages of the ProStar for smaller systems, at a reduced cost. Constant voltage PWM charging is a proven advancement compared to the common on/off PV regulators.
