

Who makes Sungrow solar inverters?

Harness the power of solar energy for your home with Sungrow. An industry leader in solar energy inverters, Sungrow provides renewable energy solutions for residential, commercial and utility-scale applications. Sungrow manufactures a wide range of residential inverters, 2 kW to 20 kW, for rooftop installation.

Is Sungrow a good brand for solar inverters?

Sungrow is a reliable brand with good performance and competitive pricing, making them a popular choice for solar inverters in Australia. They have a strong support team and have been established since 1997, with a presence in over 150 countries worldwide.

How many Sungrow inverters are there in Australia?

There are 39 of Sungrow Inverters approved by the Clean Energy Council for the Small-scale Renewable Energy Scheme, which is Australia's home solar rebate program. The majority of the listed inverters are available in Australia.

Why should you choose Sungrow solar inverters from Trione energy?

Enquire today to hear back from one of our experts on how you can get the most out of solar energy. Choose Sungrow Solar inverters from Trione Energy for top-notch efficiency and innovation. Upgrade your solar system with our advanced solutions!

What is the efficiency of Sungrow solar inverters?

Sungrow PV solar inverters offer over 99% efficiency in converting solar energy. They cater to various scales, from 2 kW to 8.8 MW, ensuring optimal power conversion for residential, commercial, and utility-scale applications.

Who is Sungrow solar?

Sungrow has an impressive 25 year track record in the solar/renewable energy industry. It also has the world's largest R&D team dedicated to solar inverter development. Sungrow supports the Australian solar market from its offices in Sydney. Enquire today to hear back from one of our experts on how you can get the most out of solar energy.
