

How do I connect my Sungrow inverter to WiFi?

On your smartphone, open settings and click into Wifi settings. You should see your home's Wifi network appear here - if you don't, there is something wrong with your Wifi network or modem and you will need to have this fixed before you can connect your Sungrow Inverter to Wifi. Please note, the Sungrow Inverter is only compatible with 2.4G signal.

Why is my Sungrow inverter not displaying data on isolarcloud?

If your Sungrow Inverter isn't displaying data on the iSolarCloud app or it says 'offline', the issue (more often than not) is that your Sungrow Inverter has disconnected from your Wifi network. Don't stress! This only means your system isn't sending data to the monitoring portal. It doesn't mean that your system isn't working.

Why is my Sungrow inverter disconnecting from my WiFi network?

Your Sungrow Inverter can disconnect from your Wifi network if you have recently: Reconnecting your Sungrow Inverter to Wifi can easily be done from the comfort of your own home without third-party help. If the WLAN light is off or flashing on your Sungrow Inverter, it could mean a few things. 1. Confirm Wifi Signal

How do I check if my Sungrow inverter is working?

Ensure the inverter is ON and operating- Check that your Sungrow inverter is powered on and generating energy. Verify your modem is ON and connected to the internet - Test your internet connection with another device to confirm it's working. Restart the inverter's Wi-Fi module - Turn off the Solar Supply Main Switch located in your meter box.

Does a Sungrow inverter need wi-fi?

Keeping your Sungrow inverter connected to Wi-Fi is key to monitoring your solar system effectively. A stable connection allows you to track energy production, monitor consumption, and stay updated on system performance, helping you maximize your investment.

How do I Reset my Sungrow inverter?

If you haven't changed internet providers, your Sungrow Inverter may reconnect to your Wifi network with a simple shut-off, switch-on procedure. To restart your Sungrow inverter, turn off the AC isolator switch (if this is located in your switchboard, it will be labelled 'Main Switch Inverter Supply').
