

What is Sungrow sg125hv?

It provides information on type of inverter, important specifications, marks of certification institutions, and serial number which are available and identified by SUNGROW. Take SG125HV as an example: ?????? GRID-CONNECTED PV INVERTER ??... 4.4 Inverter Storage Proper storage is required if the inverter is not installed immediately.

What is sg125hv?

2 Product Description 2.1 Intended Usage SG125HV/SG125HV-20; a transformerless three-phase PV grid-connected inverter, is an integral component in the PV power system. The inverter is designed to convert the direct current power generated from the PV modules into grid-compatible AC current and feeds the AC current to the utility grid.

Is there a manual for Sungrow Power Inverter?

The contents of the manual will be periodically updated or revised due to product development. There may be changes in the manual due to subsequent inverter editions. The latest manual can be acquired via visiting the website at

What if sg125hv is not installed immediately?

Take SG125HV as an example: ?????? GRID-CONNECTED PV INVERTER ??... 4.4 Inverter Storage Proper storage is required if the inverter is not installed immediately. SUNGROW shall hold no liability for the damage of the device, in appearance or the failure of internal components, caused by improper storage of the device...

Can a Sungrow inverter be touched during Operation?

Only the DC/AC switch can be touched during operation. Operate the inverter by strictly following the descriptions in this manual to avoid unnecessary personal injury and property damage. Arc flash, fire or explosion may occur if done otherwise and SUNGROW will hold no liability for damages.

What happens if a Sungrow inverter fails?

Grid transient overvoltage, The transient grid voltage is higher than the standard value. Generally, the inverter will be reconnected to the grid after the grid returns to normal. If the fault occurs repeatedly, contact Sungrow Service. Generally, the inverter will be reconnected to the grid after the grid returns to normal.

Dimensions (W x H x D) - 670 x 902 x 296 mm Weigh - 76 kg Display / Communication - LED, Bluetooth+APP / RS485 Manufacturer Warranty - 5 years. (Can be extended to 20 years) ...
