

Where can I charge my Tesla?

Charging your Tesla is fast, convenient and available anywhere with electricity. You can plug in at home or at nearby public chargers, charge at local Superchargers or at your workplace, recharge at Superchargers on the way or at your destination, and charge at home for a charged battery every day. Our charging options are designed for every property.

How does Tesla suggest charging stations?

Your Tesla automatically finds the best route and suggests charging stations along the way. Finds the best route to avoid traffic and charge if needed. Gives real-time battery estimates based on your driving style. Offers charging location recommendations along your route.

How does Tesla's Supercharger work?

Tesla's Supercharger network is expansive, ultra-fast, and reliable. Your Tesla automatically finds the best route and suggests charging stations along the way. It works by finding the best route to avoid traffic and charge if needed, giving real-time battery estimates based on your driving style, and offering charging location recommendations along your route.

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

What charging standard does Tesla use in Europe?

In Europe, Tesla's v3 Superchargers are built with CCS only. Tesla previously had its own standard, but is switching to CCS successively.

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.
