How do I get the most value from my Texas Solar System?

Get the most value from your Texas solar system by picking the right buyback electric plan. We summarize the current offers and help you pick the best one.

Does TXU Energy offer a credit for exported solar power?

The credit you receive for exported solar power depends on the plan you choose within this program. The Rise & Lumen plan offers a rate equal to your contracted rate, while the Shine & Radiant plan's rate is equal to the real-time market rate. TXU Energy offers two solar buyback plans.

Can you buy back solar in Texas?

Most customers remain connected to the grid and sign up for a traditional energy plan as a backup power source. If you have solar panels installed on your property, Texas solar buyback plans can help you offset the cost of your solar system and provide reliable and affordable electricity from the grid. Does Texas buy back solar plans?

What is a Texas solar buyback plan?

If your solar panels produce more energy than you need, Texas solar buyback plans let you send the extra power to the grid. In exchange, your Texas energy provider reimburses you in the form of bill credits or cash payments. Texas solar buyback plans are available through several reputable energy providers.

Why should I get a free solar plan checkup in Texas?

Smaller systems benefit most from lower import rates or Time-of-Use Rates like "free nights" (depending on usage patterns).
